

CONSTRUCTION DIGITALISATION
FOR SUSTAINABLE DEVELOPMENT

CDSD2020

TRANSFORMING THROUGH INNOVATION

CDSD 2020 focuses on the topic: “Transforming through Innovation” to present potential benefits of the digitalisation, to assess challenges and readiness of the construction industry for the transformation. It aims to promote the digital transformation by introducing advanced technologies, collaborating and training. Proceedings of this conference will be included in the journal IOP Conference Series or Springer's Lecture Notes Series*.

*discussing with the publishers

Conference tracks: The main topics of the conference include, but are not limited to:

Track 1: Building Information Modelling, Big Data, Data Management

Track 2: Disruptive & Innovative Technologies in Construction and Civil Engineering

Track 3: Smart, Sustainable Cities and Infrastructure

Track 4: Automation in Engineering & Construction

Track 5: Digital Ecosystem for Engineering & Construction Management

Track 6: Education and Training

Track 7: Transformation towards Industry 4.0

Conference Venue:

Considering the COVID-19 situation, CDSD 2020 will be organised both in online and offline modes. Participants who are unable to attend the conference in person will be given an option to present their papers online and attend an interactive virtual conference.

The information may be updated at any time so please do check back in regularly via the conference website: <https://cdsd2020.sciencesconf.org/>
