

10th European Conference on Protective Clothing

Protection challenges in a changing world

Arnhem, the Netherlands | May 9-12 | 2023

The 10th European Conference on Protective Clothing

is organized by NIPV (Netherlands Institute for Public Safety), in association with the European Society of Protective Clothing (ESPC). The aim of the conference is to promote research and cooperation in the area of personal protection. This conference covers a broad spectrum of the subject protective clothing within the new challenges related to climate change, sustainability, pandemics and development of digital technology with new smart functions being an integrated part of textiles and modern PPE.

A firefighter Theme Day is planned to be held during the conference

For whom?

This conference invites industries, public authorities and academic organizations – researchers, designers, manufacturers, purchasers, health and safety experts, human factors experts and procurement specialists and end-users to exchange and discuss research and project development for personal protective clothing (PPC) and equipment (PPE).
