Call for Chapters

Energy Conversion Systems: An Overview

Editors:

Saurabh Mani Tripathi, Ph.D.

Department of Electrical Engineering
Kamla Nehru Institute of Technology, Sultanpur, India
E-mail: mani@knit.ac.in

Sanjeevikumar Padmanaban, Ph.D.

Department of Energy Technology
Aalborg University, Esbjerg, Denmark
E-mail: san@et.aau.dk

One or more original research or review chapters are being invited for upcoming hardcover edited collection tentatively entitled "Energy Conversion Systems: An Overview".

Submission Guidelines

The extended abstract of the proposed chapter must be submitted directly to the Editors via e-mail. After acceptance of the extended abstract of the chapter, the full chapter shall be submitted using EasyChair link provided in the acceptance notification. All chapters must be original and simultaneously not submitted to another journal or conference etc.

Inclusion in Nova's edited collections is without charge to authors. The only exceptions are color figures if required and an English editing fee if it is determined to be necessary. Other manuscript enhancement options are available at the author's discretion. For more details click on the following link:

List of Topics

Particular topics of interest include, but are not limited to, the following:

- Wind power – offshore / onshore power generation technology
- Solar energy conversion system
- Geothermal energy conversion
- Marine / ocean energy conversion
- Micro-hydro systems
- Hydrogen and fuel cells
- Energy storage
- Smart energy system
- Power converter topologies and controls for efficient energy conversion
- Power quality aspects to the energy conversion systems
- Future of sustainable energy
- Energy from waste - case studies

Contact

All questions about submissions should be e-mailed to mani@knit.ac.in OR san@et.aau.dk.
