**ICEEI 2023** aims to provide a platform for scholars, intellectuals and professionals to share and discuss the current local and global issues, address solutions to the problems, and to establish global partnerships for future collaboration.

Authors from multiple research disciplines are cordially invited to submit original and unpublished works for publication and presentation at the conference. All submissions are subjected to peer review before an acceptance decision is made. Our review committee will also select potential papers that have the merits for Scopus publication.

## Research tracks include, but not limited to:

- Power Engineering
- Telecommunication
- Control Engineering
- Information Technology
- Electronics and Electron Devices
- Software Engineering
- Biomedical Engineering
- Computer Engineering
- Informatics (Computer Science)
