The International Conference on Materials Science and Semiconductor Devices (ICMSSD 2020) is a new initiative of the Department of Electrical and Electronic Engineering at University of Dhaka. The goal of the conference is to bring together researchers who are in the field of material science and semiconductor devices, both directly and indirectly, to cross-fertilize ideas. ICMSSD will bring together researchers, enabling them to keep up to date on new findings and share ideas and experience with experts in the area.

The intent of the conference is to offer a high-quality symposium to highlight the best in the field. The papers should contribute novel results that show clear advancement to the state-of-the-art, and should include analytical and/or experimental evaluation appropriate to the work. It is expected to see the best of material science and semiconductor device research represented at the ICMSSD 2020.

The conference scope will include the following general fields, but are not limited to:

Material Science Topics
Electronic and Photonic Materials
Materials for Battery
Ceramic Materials
Energy Materials and Technologies
Nanomaterials
Soft Materials and Biomaterials
Magnetic and Superconducting Materials

Semiconductor Devices Topics
Nano Device Technology
Emerging Devices
Compound Semiconductor and High-speed Devices
Device Modeling and Simulation
Optoelectronic and Photonic Devices
Power Devices
Sensors, MEMS, and BioMEMS

Conference	23-24 July 2020
Abstract Submission Deadline	15 April 2020
Notification to Authors	15 June 2020

VENUE:

Nawab Ali Chowdhury Senate Bhaban, University of Dhaka
