In Association With

Call for Paper

Port City International University is going to organize an International Conference on Sustainable Development in Technology for 4th Industrial Revolution (ICSDTIR-2021) in the field of Engineering and Technology (CIVIL, CSE, EEE and TEXTILE) on 12-13 March, 2021 in Chattogram, Bangladesh. Due to the Covid-19 pandemic worldwide, the conference will be held as a Virtual Conference.

This conference aims to provide a platform for research communities, engineers, scientists and students to share their research experience and innovative ideas in the fields of engineering and technology. It also focuses on the types of compatible technology, their integration and potential impact on society. The primary goal of this conference is to develop an informed, collective understanding of the benefits, challenges and related issues through sustainable development for the 4th IR (Industrial Revolution). To promote sustainable industries and invest in research, development and innovation are important ways to facilitate sustainable development.
