

INFUS 2020

International Conference on Intelligent and Fuzzy Systems
July 21-23, 2020 Izmir / Turkey

Theme

Intelligent and Fuzzy Techniques: Smart and Innovative Solutions

Smart technologies, when integrated with data analytics platforms and networks, offer the potential of expanding the fundamental capacity of any system. Organizations that invest in smart technologies can see rewards including higher revenues, an improved customer experience and increased employee satisfaction. Smart Solutions let you cost-effectively achieve and manage your objectives for efficiency, capacity and availability. Innovative technologies in all business segments provide significant competitive advantages for successful development. Innovative decisions should be based on the clearly formulated innovative strategies and fit into business strategies. Innovative decisions start with formation of an updated information field regarding the innovations being implemented and possible for the implementation in all operating segments of the business. INFUS 2020 will focus on smart and innovative technologies and solutions.

INFUS Conferences

INFUS is an acronym for Intelligent and Fuzzy Systems. It is an international research forum to advance the foundations and applications of intelligent and fuzzy systems, computational intelligence, and soft computing for applied research in general and for complex engineering and decision support systems. The principal mission of INFUS is bridging the gap between fuzzy & intelligence systems and real complex systems via joint research between universities and international research institutions, encouraging interdisciplinary research and bringing multidisciplinary researchers together. The conferences will be held in Izmir.

Publications

Proceedings

All accepted papers will be Double Peer Blind Reviewed and the accepted papers will be published in the INFUS 2020 proceedings by Springer.

Publication Opportunity in Conference Associated Journals

Journal of Multiple-Valued Logic and Soft Computing (SCI-E)

Journal of Intelligent and Fuzzy Systems (SCI-E)

Recent Patents on Engineering (Scopus, EI/Compendex, EBSCO)

International Journal of Risk Analysis and Crisis Response

Special Sessions

Researchers are invited to submit a one-page proposal for a special session to the conference address [infus@itu.edu.tr]. A special discount in registration fee will also be applied to special session organizers.

Program and Social Events

A social program will be organized including top sights in Izmir including visits to ancient cities.

Detailed program will be announced soon!
