Call for conference proposals

We are living through a
transformative time during
the COVID-19 pandemic.

As teachers, scholars, and
professionals in education, we
recognize our responsibility
to advocate for positive social
change and to demonstrate
a commitment to building
a supportive and inclusive
educational environment for all
members in our community.

Focused on the emergent themes of
community accountability and racial
solidarity, the 2021 JoLLE@UGA Winter
Conference invites you to participate in
meaningful conversations about race,
ethnicity, diversity, and equity.
