

The Sixth International Conference on Mining Intelligence and Knowledge Exploration (MIKE 2018)

20 – 22 December 2018 at Cluj - Napoca, Romania

Venue:

Technical University of Cluj-Napoca
Baritiu 28, 400391, Cluj-Napoca, Romania

Invited Speakers

Prof. Radu Grosu

The Vienna University of Technology, Austria and
(State University of New York at Stony Brook, USA)

Prof. Sudip Misra

Indian Institute of Technology,
Kharagpur, India

Prof. Vasile Rus

The University of Memphis, USA

MIKE 2018 is an interdisciplinary conference that brings together researchers and practitioners developing learning algorithms in the domains of artificial intelligence, machine learning, data mining, conversational (natural language based) systems, evolutionary computation, internet-of-things, data analytics, soft computing, computer vision, speech processing, security systems, vehicular networks, and so on.

Call For Papers

The MIKE 2018 Program Committee invites submissions of original theoretical research, applied research and deployed application papers on all aspects of Learning Algorithms, Data / Text Mining and Knowledge discovery techniques for the main technical program.

Submission Topics

Each submission must be identified as theoretical/methodological research, applied research, or deployed application paper and will be reviewed using criteria appropriate to its category: Theoretical/Methodological research paper, Applied research paper, and Deployed application paper. The MIKE 2018 Program Committee invites submissions in the following areas, but are not limited to:

- ❖ Evolutionary Computation
- ❖ Knowledge Exploration in IoT
- ❖ Artificial Intelligence
- ❖ Machine Learning
- ❖ Data Mining and Information Retrieval
- ❖ Social Media and Big Data Analysis
- ❖ Image Analysis, Pattern Recognition and Computer Vision
- ❖ Speech / Signal Processing
- ❖ Text Mining & Natural Language Processing
- ❖ Intelligent Security Systems
- ❖ Smart and Intelligent Systems

All accepted papers will appear in the conference proceedings, Lecture Notes in Artificial Intelligence (LNAI), a subseries of Lecture Notes in Computer Science published by Springer.
