CALL FOR PAPERS

The first edition of the **International Conference on Artificial Intelligence and Green Computing (ICAIGC 2023)** will be held in **Beni Mellal, Morocco** during **March 15-17, 2023**. This edition is organized by the Data4Earth Laboratory, Faculty of Sciences and Technics Beni Mellal, University Sultan Moulay Slimane.

ICAIGC 2023 aims to share experiences and to present recent advances in the use of Artificial Intelligence in various scientific applications and fields. The conference will provide an innovative networking forum in which researchers, academics and engineers can discuss and exchange the most recent research results, innovations and concerns related to the Artificial Intelligence. The encountered challenges and the adopted solutions in various fields covering environmental and informational aspects of sustainability will be also discussed.

The **ICAIGC 2023** conference committee is excited to invite you to attend the conference and very confident to receive high quality papers.
