

3-Day International Conference on

ENVIRONMENTAL RESILIENCE AND POLICY FRAMEWORK IN THE AGE OF AI

 Dec 14-16, 2026

 Administrative Staff College of India, Hyderabad, India

CALL FOR PAPERS

ABOUT THE CONFERENCE

Environmental resilience has emerged as a fundamental aspect worldwide for understanding the capacity of ecological and human systems. Moreover, the advent of Artificial Intelligence (AI), from a capability to an infrastructure, introduces significant opportunities as well as challenges. In this context, ASCI, Hyderabad, India, in collaboration with Florida International University, Miami, invites contributions to bridge the gap between environmental resilience and AI innovation across six tracks.
