SMA2023

The 12th International Conference
on Smart Media & Applications

December 13~16, 2023
Asia University, Taichung, Taiwan

SMA 2022 will provide an excellent forum for addressing research issues of concern within Smart Media and Applications. SMA 2022 concentrates on innovative solutions to complex problems in all areas of industry and sciences using advanced techniques in Smart Media and Computer Science Applications. It involves Smart Media, Smart Software Applications, Smart Information, Smart Services, and so on. Authors are invited to submit original papers in all areas related to Smart Media and Applications. Topics will include, but not be limited to, the following areas:

Topics of Interest

- Intelligent Computing
- Cloud Computing
- Distributed Computing
- Parallel Computing
- Smart Grid Computing
- Artificial Intelligence
- Image Processing
- Computer Graphics
- Signal Processing
- Multimedia
- Human Computer Interaction
- Smart Finance
- Smart SOC
- Smart CRM
- Smart Factory

- Mobile Networks
- Social Network
- Big Data
- Security and Trusted Computing
- Sensor Networks
- Smartphone Platform and Applications
- Software Engineerin
- Internet of Things
- E-Business
- Storytelling and Production
- Media Convergence
- Smart Agriculture
- Smart Transportation
- Smart Logistics
- Smart Farms

IMPORTANT DATES

October 15, 2023	Paper Submission	November 19, 2023	Author Notification
November 30, 2023	Camera-Ready Copy & Early Registration	December 13~16, 2023	Conference Dates

PAPERS

All paper submissions will be handled electronically.
The submission process is described on the Submission Page https://www.kism.or.kr/sma/sma2023/.
All papers will be fully refereed and undergo a blind review process by at least three referees. Accepted papers will be published in the annual conference proceedings. Submission guidelines can be found on SMA 2023. Extended versions of selected papers will be published in several International Journals as a special section for the SMA 2023. For more information please visit the SMA 2023 Website.

Special Workshop/Track Proposal

The special workshop and tutorial program is an integral part of SMA 2023. The organizing committee solicits special workshops and tutorials that tend to stress state-of-the-art technologies directly applied to the practitioners' field. All proposals for the workshop and tutorials in all areas of experimental computing and application development. The special workshop and tutorial's duration is either full day or half-day. The proposals for the special workshops and tutorials should include a brief summary and outline, specific goals and objectives, expected background of the audience, and a biographical sketch of the chair(s). All proposals should be directed to the Program Co-Chairs and Tutorials Co-Chairs. The submission guidelines can be found on SMA 2023 Website.

Paper Submission

All paper submissions will be handled electronically.
The submission process is described on the Submission Page : https://easychair.org/conferences/?conf=sma2023
