Welcome

The K-IIT College of Engineering (K-IIT CoE) and the Acoustical Society of India (ASI) are organizing IISA-2025 co-sponsored by the International Commission for Acoustics (ICA) and the Committee on International Research and Education of the Acoustical Society of America (ASA/CIRE):

IISA 2025 Gurugram October 30-31 to November 1, 2025

The main goal of this Conference is to provide a mutual deep insight on acoustics activity in both ASI and member societies of ICA and, therefore, to trigger fruitful exchanges and future cooperative research projects.

The conference is open for International cooperation. **Foreign acousticians are most welcome to participate and propose structured sessions.**

Many agencies including International Commission on Acoustics (ICA), Acoustical Society of America (ASA) Council of Scientific and Industrial Research (CSIR), Dept. of Science & Technology (DST), Defence Research and Development Organisation (DRDO), Indian Council of Medical Research (ICMR), Indian National Science Academy (INSA) etc. are co-sponsoring the Conference.

IISA 2025 Gurugram will gather more than 200 Indians and 100 Foreigners: acoustical experts, students and practicing specialists ...

IISA 2025 Gurugram will be a unique platform for Indian, Foreign and other national Industries, Academic Institutions, Enforcing Authorities, Medical Fraternity etc. to meet, exchange and trigger future collaboration projects.

We look forward to meeting you in Gurugram.

Director, IPR Bhopal

CALL FOR PAPERS

IISA 2025 Gurugram invites papers related to various disciplines in Acoustics for presentation and publication in the proceedings. Selected articles will be published in J. Acoustical Society of India & Springer lecture proceedings.

The conference will be based on several structured sessions organized and chaired by (at least) one Indian and one Foreign scientist. Sessions will be announced on the website.

Indian as well Foreign Acousticians willing to organize a structured session may propose it to the corresponding topic technical chair for approval. Acousticians are also welcomed to participate and to propose structured sessions (that they will organize together with an Indian and Foreign colleague).

K-IIT College of Engineering (K-IIT CoE)

The K-IIT College of Engineering, located in Gurgaon, Haryana, is a renowned educational institution and was established in the year 2006. The institute offers a wide range of Degree programmes at UG and PG levels. The institute offers AICTE approved programs to students in Full Time mode to pursue their careers in higher studies. These courses are offered across various fields, including Engineering and Business & Management Studies. Some of the most popular programme offered at the institute are B. Tech, MBA, BCA and BBA. K-IIT College of Engineering has been organizing various national and international conferences and workshops and faculty development programmes like international symposium on frontiers of research on speech and music (FRSM) in collaboration with ITC-SRA, Kolkata, and CMMR-Spain in January 2012, an International conference O-COCOSDA in November 2013 and International conference on Spoken Language Technologies for Under Resourced language (SLTU) in August 2018 and SPECOM 2022 in which delegates from 21 countries were participated and many programs of scientific, cultural and physical programs for the development of the Youth of the country.

ACOUSTICAL SOCIETY OF INDIA (ASI)

The Acoustical Society of India (ASI) was established and registered at Visakhapatnam on 31st July, 1971 with the major objective of "The advancement of science & technology of all branches of acoustics and the maintenance of high standards in such science and technology; to increase and diffuse the knowledge of acoustics and promote its practical applications". The ASI conducts a National Symposium on Acoustics every year with a special theme. The ASI brings out the Journal of Acoustical Society of India to disseminate the latest trends in Acoustics among the professionals in the country. To encourage Indian Scientists/Technologists, the society has constituted various awards/honors. It is an active member of the International Commission on Acoustics (ICA). The society is having more than 30 local chapters and a combined membership of about 1250 members representing a wide spectrum of acoustical specializations. It has 43 institutional members representing Indian Industry and 16 leading foreign experts as honorary fellows of the society.

INTERNATIONAL COMMISSION FOR ACOUSTICS (ICA)

The purpose of the International Commission for Acoustics (ICA) is to promote international development and collaboration in research, development, education, and standardization in all fields of acoustics. This is accomplished primarily by providing opportunities for the exchange of information and ideas among the various international acoustics communities.

ACOUSTICAL SOCIETY OF AMERICA (ASA)

The Acoustical Society of America (ASA) is an international scientific society founded in 1929 dedicated to generating, disseminating and promoting the knowledge of acoustics and its practical applications. The Society is primarily a voluntary organization of about 7500 members and attracts the interest, commitment, and service of many professionals
