Unleashing User Innovation

Multidisciplinary Perspectives on End-user Development and Generative AI

We invite researchers, academics, professionals, and industry experts to contribute their chapter(s) to this book to be published by Taylor & Francis Group. The book aims to explore the rapidly evolving landscape of End-User Development (EUD) and its intersection with Generative Artificial Intelligence (Gen AI) technologies. Your chapter may fall under one of these themes:

- Theme 1: Introduction to End-User Development
- Theme 2: Applications of End-User Development
- Theme 3: Exploring AI and Prompt Engineering in End-User Development
- Theme 4: Challenges of End-User Development

Editors

- Dr. Mohammad Amin Kuhail, Associate Professor, Zayed University
- Dr. Mostafa Mohamad, Associate Professor, Zayed University
- Dr. Rawad Hammad, Lecturer, University of East London
- Dr. Mohammed Bahja, Lecturer, University of Birmingham

Deadlines

- Full Chapter Submission: **Jul 15, 2024**
- Peer Review Feedback: **Aug 15, 2024**
- Final Chapter Submission: **Sep 15, 2024**
