

# JUNIOR CONFERENCE ON WIRELESS AND OPTICAL COMMUNICATIONS

You are finishing or you just have finished your internship  
as second-year master student or  
You are a first or second year PhD student and  
You have obtained nice research results  
waiting to be shared with colleagues, master students, or PhD students...

Present them at the  
**Junior Conference on Wireless and Optical Communication**  
in Amphi 1 in Eiffel building of CentraleSupélec on :

## Important dates

Submission deadline: August 28th 2021 at midnight

Acceptance notification: September 7th 2021

Conference: October 7th 2021

The contributions of interest are related to **wireless and optical communications and networking**, but also to **signal processing, multimedia communications, IoT, cloud computing and Artificial intelligence**.

The Junior Conference on Wireless and Optical Communication is organized by students for students.

[Submit Your Paper](#)

Submit extended abstracts in English limited to 2 pages. The submission templates are available [here](#).

All submissions will be reviewed by the scientific committee on the basis of **relevance to the scope of the conference, originality, significance in the field, and clarity**.

Please forward this message to all students of your teams and groups (within University Paris-Saclay and Institut Polytechnique de Paris) working in the broad area of wireless and optical communication and networking.
