

4th International Workshop

P2P Financial Systems 2018

Opportunities • Risks • Market Dynamics • Regulation

26-27th JULY 2017, CLEVELAND, USA

CALL FOR PAPERS

This 4th edition of the P2PFISY workshop brings together leading scholars, regulators and practitioners interested in P2P financial systems. The workshop merges the gap between academics, technologists, policy makers and regulators, by providing a unique cross-sectoral perspective, and an environment to exhaustively address questions of practical importance on the following topics:

- **Digital Currencies and Blockchain Technologies**
- **P2P Lending and Crowdfunding**

Submissions should focus on (but are not limited to):

- Cryptographic protocols and P2P networks
- Central bank digital currencies (payment and monetary aspects)
- Threats / attacks / defences / security engineering of P2P systems
- Systemic risk of P2P systems
- Digital identification
- Fraud detection and financial crime prevention
- Legal aspects and regulatory issues
- Financial inclusion and market stability
- Socio-economic and monetary aspects of P2P systems
- Technology adoption and market dynamics
- New business models and novel applications
- Automatic Regulation and Automatic Compliance (RegTech)
- Innovative technology applied to the insurance industry model (InsurTech)
- Internet of Things, smart energy & utilities
- Smart contracts and decentralized government

Authors wishing to contribute a paper to the conference should do it via the *EasyChair* submission system using the following link:

<https://www.easychair.org/cfp/p2pfisy2018>

- Full papers or extended abstracts must be submitted in PDF format.
- The deadline for submission is midnight **GMT 15th May 2018**.
- Any mention of the author's names or affiliations should be removed from the submitted paper.
- Submitted papers will be reviewed by the P2PFISY Scientific Committee.
- Corresponding authors will be notified of acceptance by **15th June 2018**.

SPECIAL ISSUE

Authors whose papers are accepted will have the opportunity to submit their papers for publication in a special issue of ***Journal of Digital Banking***, the major new professional journal publishing in-depth, peer-reviewed articles and case studies on FinTech innovation, digital disruption and how to develop a profitable, customer-focused digital banking strategy. Details of the journal and formatting your submission can be found at <https://www.henrystewartpublications.com/jdb> or by contacting the Publisher, Simon Beckett, at simon@hspublications.co.uk.
