# International Engineering Research Symposium 2023

## IERS 2023

Economic Resurgence Through Engineering  
Innovations

# Call for Papers

A forum for sharing knowledge and networking with academics, researchers and industry experts

### INTRODUCTION

National Engineering Research & Development Centre of Sri Lanka has organized IERS 2023, in parallel with the National Science Week of the Ministry of Education. This symposium is held in partnership with DIGIECON2030 of the Ministry of Technology and will bring together, academics, researchers, industry experts and students to share and discuss the latest advancements in the field of engineering, with respect to innovation and engineering concepts that need to be implemented to revive the economy of the nation.

### IMPORTANT DATES

**Extended Date of Paper Submission  
Aug. 15**

**Sep. 01** Notification of Acceptance

**Sep. 01** Registration Open

**Sep. 15** Camera Ready Full Paper

**Nov. 02** Symposium and Network Forum

### SYMPOSIUM TRACKS

1. Agricultural Engineering
2. Biomedical & Humanitarians Engineering
3. Civil Engineering
4. Computer Science & Software Engineering
5. Electrical, Electronic & Telecommunication Engineering
6. Energy & Environmental Engineering
7. Manufacturing & Process Engineering
8. Mechanical & Mechatronic Engineering
9. Other Topics Related to IERS 2023 Theme

*Accepted papers  
will be published in IERS 2023  
proceedings with ISBN and  
Sri Lanka  
Science Index Database*
